

## LETTER OF RECOMMENDATION

13<sup>th</sup> January 2026

TO WHOM SO EVER IT MAY CONCERN

I am pleased to recommend Mr. Dhruv Jyoti Das for a research internship opportunity. I have known Dhruv as his project mentor during the Samsung PRISM program at the Department of Computer Science and Engineering, SRM Institute of Science and Technology, where I currently serve as Assistant Professor.

During the course of the PRISM project that Dhruv undertook under my supervision, he displayed a strong aptitude for research-oriented problem solving, technical rigor, and disciplined execution. The project required students to engage with modern applied AI methodologies, structured experimentation, and collaborative development cycles. Dhruv consistently demonstrated the ability to quickly grasp new concepts, translate them into working implementations, and present results in a technically sound manner. His analytical thinking, coding proficiency, and clarity in communication stood out throughout the project duration.

Aside from his technical contributions, Dhruv has shown initiative and curiosity beyond the minimum scope of assigned tasks. He actively participated in design discussions, read and incorporated relevant research material, and frequently proposed improvements to experimental approaches and system design. His attitude toward learning and self-improvement makes him particularly suited for research-based environments.

Dhruv is highly motivated, possesses strong fundamentals in computing and programming, and has a genuine interest in applied research. He carries himself with professionalism and responsibility, and has been a reliable individual to work with. Based on his performance under my supervision, I am confident that he will add value to any academic or industrial research group he joins.

I strongly recommend Mr. Dhruv Jyoti Das for a research internship position. I am confident that he will excel and contribute meaningfully to any organization or academic laboratory.

With regards,

**Dr. Shibu N V**

Assistant Professor,  
Department of Computing Technologies,  
SRM Institute of Science and Technology,
